

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The said amount has accordingly been raised in each year since, and including the year 1855, and paid over to the credit of the Sinking Fund for the Redemption of the City Debt for the above purposes, it being calculated that the aggregate amount of such annual contributions, with the accumulation of interest thereon, would produce a sum sufficient to pay the principal of the stock at its maturity, in 1873.

† The sum of \$130,763.33 is to be raised by tax annually (see chapter 408, Laws of 1860), for fourteen years, commencing with the year 1865, to constitute a Fund (to be under the control of the Commissioners of the Sinking Fund), for the Redemption of the Floating Debt Fund Stock when it becomes due.

In conclusion I may be permitted to state that the rules established for the issue and transfer of the Stocks and Bonds of the city are such as to secure all parties interested against any possible fraud or loss.

As the List of Stocks and Bonds is examined quarterly or half-yearly upon payment of dividends at the Chamberlain's office, any error in the amount of stock or interest could not fail to be detected.

It affords me pleasure to be able to state that nothing has occurred, that comes to my knowledge, in relation to the issue, transfer, or redemption of the Stocks and Bonds of the city, during the period I have held the position of "Stock Clerk," by which either the Corporation or Stockholders have suffered the loss of a dollar.

W. H. DIKEMAN,

REPORT OF THE RECEIVER OF TAXES.

CITY OF NEW YORK—DEPARTMENT OF FINANCE, }
BUREAU OF THE RECEIVER OF TAXES, }
March 5, 1866.

HON. MATTHEW T. BRENNAN, *Comptroller* :

SIR—Early in January last I transmitted my Annual Report for the year 1865. The amount collected will show a very large increase over previous years. On the 28th of September I commenced receiving the taxes for 1865 on Personal Estate, and on October 14 the taxes on Real Estate, since which time the Clerks have labored with more than usual zeal.

Owing to the press of business, and to the fact that many of the Temporary Clerks were unfamiliar with their duties, the Messengers have been obliged to perform the duties of Clerks. Except some trivial errors in postings (which can be traced to the Temporary Clerks), the business of the office has been conducted with more accuracy than in previous years.

I would again call your attention to the necessity of more office room, that now occupied being entirely inadequate to the business.

The law taxing the stockholders of banks will add greatly to the labor of this Bureau, and increase the number of books, for which we have actually no desk room.

Very respectfully,

JOHN MURPHY,
Receiver of Taxes.
